SCRM—Shelter Crescent Rack Parts List

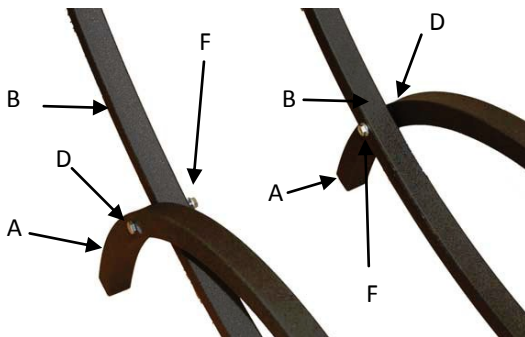

Letter	Description	Image	Quantity
A	Small arc section		2
B	Large arc section		2
C	Support bracket		3
D	Long bolt		4
E	Short bolt		6
F	Flange Nuts		10

SCRM— Shelter Crescent Rack Assembly Instructions

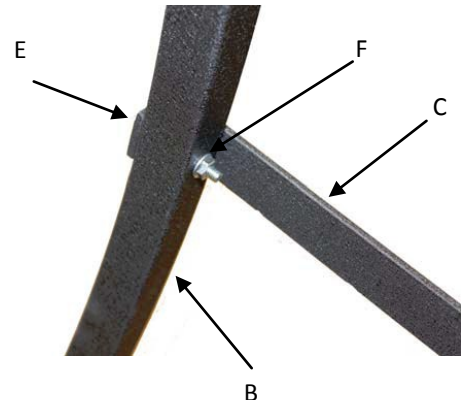

STEP 1:

Bolt the small arc section (A) to the outside of the large arc section (B) using the long bolts (D). The bolt should go through the bottom piece first. The nuts (F) have a built in washer that should go against the large arc section (B) to prevent them from working loose. (See Image below.)

STEP 2:

Bolt the support bracket (C) to the outside of the large arc section (3 Places) using the short bolts (E). The bolt should go through the support brackets (C) first. The nuts (F) have a built in washer that should go against the bent piece to prevent them from working loose. (See Image below.)

PLACEMENT:

To prevent the possibility of this product tipping over it **MUST** be placed on a hard, level surface (Concrete or other stable surface). **NEVER** place this item on dirt or other unstable surfaces. Concrete stepping stones may be used to create a hard, level surface.
